* From this point through the end, if extra trumpets are available, supplemental players can double the trumpet 3-4 parts from the back of the audience. Space far apart, such that trumpet 3 is on house left, and trumpet 4 on house right (or vice versa). Only use antiphonal players if the stage section (trumpets 1 through 4) can remain "full-sized" as well. Be careful of balance, so that the melody in trumpet 1 is still the dominant line, and is not covered by the antiphonal flourishes.
